

Webb Elementary School National Honor Society

Webb Elementary School became a member of the National Elementary Honor Society in 2008. Students are eligible to become a member in the 5th and 6th grade. The Honor Society looks at many aspects of the student in determining the selection of members. Students must have an 88 average beginning in 4th grade. Starting in the 5th grade, students are not allowed more than 2 disciplinary referrals for the entire year. If a student has a disciplinary referral and the punishment is severe such as Alternative School, Suspension, Expulsion, etc., they are not eligible to become a member. Students must have a 3 average on a 1-4 scale. The faculty council then considers the students activities at home and in the community. Students that meet these qualifications are asked to join the Webb chapter of the National Elementary Honor Society.
